

Companion Value Seed Packs

Amaranth - Beans - Carrot

Amaranth- Tricolor

Beans – Green Gold

Carrot - Nantaise

*Lettuce – Long
Standing Batavian*

Cosmos - Yellow

- 🌱 **Amaranth** attracts pollinators through its attractive inflorescence, thereby avoiding the propagation of pests.
- 🌱 **Beans** repels beetles and rejuvenates the soil by fixing nitrogen.
- 🌱 **Carrot** when teamed with lettuce or radish complement each other's growth and remain succulent in summer
- 🌱 **Lettuce** traps white worm that can otherwise damage roots of the main vegetable plants. It also deters slugs and snails from attacking the main crop.
- 🌱 **Cosmos** attracts pollinators and predators, while repelling harmful insects.
